

Bump for CLOTHES Tutorial

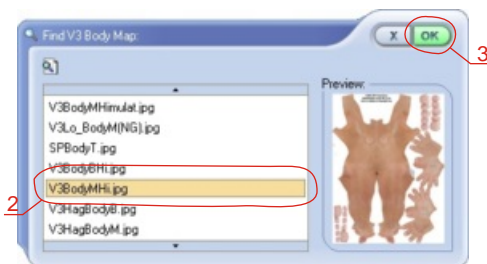

Bump for CLOTHER Tutorial

1. Step by step tutorial

1. Open CLOTHER, load clothes from Clothes Library and select **Auto Search** button, from skin preview window, to find V3 skin texture for background.

2. Select V3 skin texture from the list.

3. Select **OK** button.

4. Select **RENDER** button. Now will be created MAT file.

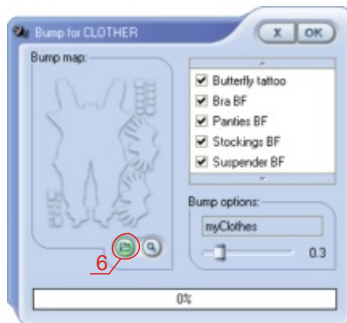

5. Select **Plugins** -> **Bump** from main menu.

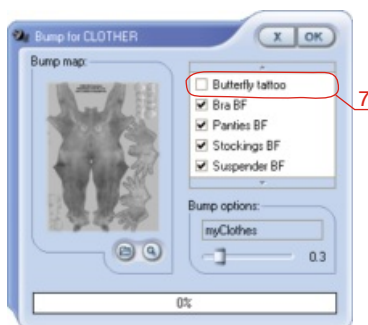

Bump for CLOTHER Tutorial

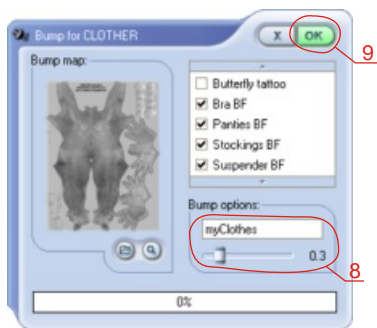

6. Select **Manual Search** button, from bump map preview window, to find V3 bump texture for background.

7. Uncheck this clothes which shouldn't have its own bump (e.g. tattoos).

8. Set **Render Name** and **Bump Strength**.

9. Select **OK** button.

10. Open Poser with installed DAZ Victoria3.

11. Load **Victoria3** from Poser Figures library.

Bump for CLOTHER Tutorial

12. This model is loaded without skin texture, so you need to first add skin texture to Victoria3 figure.

13. Open Poses library **Zew Cloth**.

14. Load MAT file generated by CLOTHER, usually named **myClothes** (V3 figure must be selected).

15. Load MAT file generated by BUMP Plug-In, usually named **myClothesB** (V3 figure must be selected).

16. Now Victoria is ready for posing and render.

Tips for Bump

Tips for Bump

Tip 1

If you want to add strong bump for clothes set bump strength on 2 and select skin texture instead of bump texture for background (you will receive delicate bump on skin and strong on clothes).

Tip 2

If your favourite skin texture does not have bump texture, you can choose skin texture as a background.

Tip 3

If you don't want skin bump, but you want bump on clothes, prepare black texture 3000x4000 and choose it as a background.
